HIGHLIGHTS AND NOTES

Say it in the margin.

Highlight a phrase, leave a note, answer one. Every mark on this page is an annotation, saved in the PDF.

A good review starts with one clear mark. A highlight says “look here”, a note says why, and both stay in the PDF for the next person who opens it.

Text markup comes in four kinds. A highlight colours the text, an underline stresses it, a ~~strikeout proposes to cut it~~, and a squiggly line questions it.

A note starts a conversation. Replies collect under it as a thread, and the person who asked can accept or reject what comes back.

Your turn

Select this sentence, then mark it yourself.

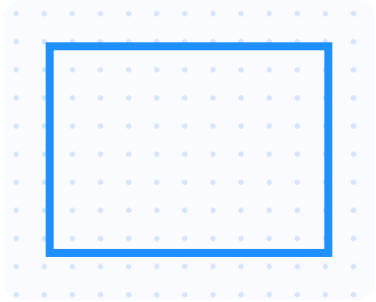

Hover a mark to read it.

Each note shows who wrote it. Replies and verdicts stay with the note they answer.

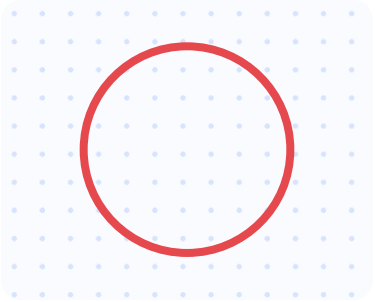

SHAPES AND INK

Draw
on top of it.

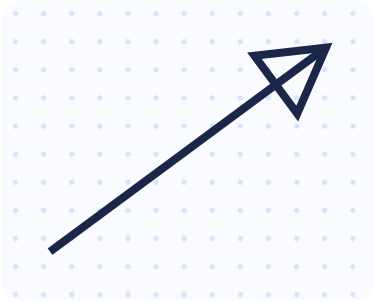

Rectangles, circles, lines, polygons and ink. Click one to select it, then move it, resize it or turn it.

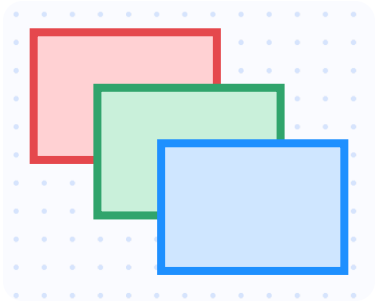

`square` square

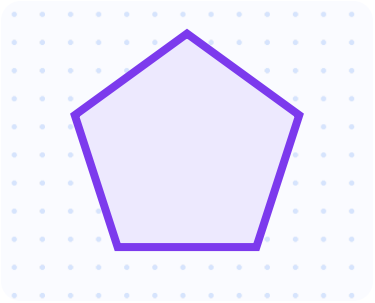

`circle` circle

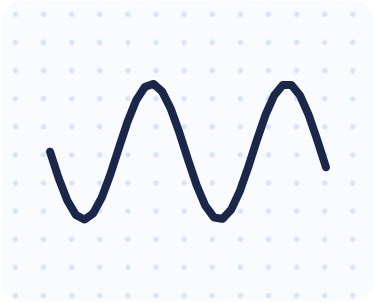

`arrow` line

`stack-1 … stack-3` square

`polygon` polygon

`ink` ink

Select, then change.

Drag a shape to move it, a handle to resize it, or the round handle to turn it. Shift-click adds to the selection.

TEXT BOXES AND STAMPS

Type it, stamp it.

Text boxes hold your words, in any style. A stamp says Approved, Draft, or anything you draw.
